

GDSC IIIT-D organized **Compose Camp + Mini-Hack** on 1st October, 2022 as its first event of the new academic year 2022-23. Compose Camp covered an **introductory session to Android App Development** using Compose, along with learning the fundamentals of building modern android apps. The event also included a **hands-on workshop**, where participants learnt to build their first android application under the guidance and support of GDSC IIIT-D's mobile development team. This was followed by a **mini-hack** towards the end of the workshop. A short interactive quiz was also conducted for all attendees during the event, whose winners were announced on our instagram handle. The event witnessed a footfall of more than 150 participants, from different colleges including students from GDSC Kalindi & GDSC MAIT. The session was held in C-101 of IIITD's LHC from 4:30-7:00 PM.
